

Jaywalker Nation E-Newsletter Vol. 2 [May 3, 2005]

Greetings from Carbondale, Colorado!

Jaywalker Lodge opened its doors two weeks ago on Monday, April 18. We have been licensed by the State of Colorado Alcohol and Drug Abuse Division (ADAD) to provide extended care residential treatment for up to 18 clients. **Jaywalker Lodge** provides a minimum 90-day length of stay for motivated adult men, ages 18 and over. We have admitted four clients to date, with three more arriving next week!

This website is worth a visit...

Please check out our updated website at www.jaywalkerlodge.com. You will find everything you ever wanted to know about us:

- A [photo tour](#) of **Jaywalker Lodge's** brand spankin' new treatment lodge.
- Admissions, program and cost information for [our program](#).
- Photos and bio's of [Jaywalker's team](#) of dedicated professionals.

How are we different?

Three things to remember about Jaywalker Lodge:

1. **Jaywalker Lodge** provides a 90-day intensive STEP ONE experience for men with a history of treatment followed by relapse.
2. Jaywalker clients engage in a "practical program of action," including therapy, service to others, and mountain treks and expeditions.
3. Clients live each day in the solution: **Jaywalker Lodge** is built on the "promises of recovery," versus the "consequences of addiction."
